

What do our clients think?

“I wanted to compliment you on the fine service you have provided my office. It has been a pleasure working with you — your work is professional, timely, and meet our needs exactly. Thank you for doing this work for us — you have saved my office a great deal of work, stress and headaches.”

*Rebecca L. Johnson
DBE Supportive Services
MT Department of Transportation*

“The quality of programming provided by MIC is extremely high. Their pricing is quite reasonable. When you couple the pricing with the quality of service, you know why I continue to use MIC for my technical and programming needs. ”

*Tonja Holder
Manager, MIS
Pathways Communities*

“We have found their pricing, delivery and performance to be outstanding. The reliability and customer service we have received over the past four years has always exceeded the highest of standards.”

*Karl Johnson
Utilities Director
Fairburn Utilities*

“Morton International has always exceeded our expectations with performance, delivery and pricing. The whole Morton team was very knowledgeable and great to work with. ”

*Wanda Coggin
System Marketing Manager
Yokogawa Corporation of America*

PRODUCTS & SERVICES

Custom Web-Based Software Development

What does this mean for you?

Are you tired of spending thousands of dollars on “out-of-the-box” software and not getting the desired result? We can develop software that specifically fits your needs. You will be able to do exactly what you want and how you want it. No more wasting money on programs that only do half of what you need.

Service Features:

- Custom applications and utilities
- Improve workflow
- Information available internally or externally

I-Witness Video Server Software

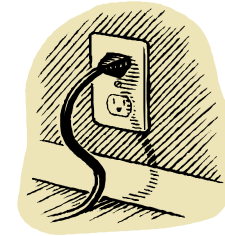

What can this do for you?

- *Do you need to monitor a process?*
- *Do you have a security problem?*
- *Tired of switching out video tapes?*

I-Witness can solve all these problems.

Product Features:

- Digital storage
- Digital playback
- Image archiving
- Web browser access
- IP Camera control

Energy Management Solutions

Why do you need this?

You will be able to monitor and control your energy usage. This will reduce costs, and provide more comfort to your employees and customers.

Product Features:

- Hardware and software that can interface to
 - Energy management systems
 - Discrete devices
 - Control systems
- Provides a web interface to monitor and control the system in a site wide or enterprise wide solution.
